

TECHNOLOGY RESOURCES

Clever

The Clever Dashboard

The Clever Dashboard is a Google Extension that houses all the students frequently used websites and programs. It securely stores their usernames and passwords so they do not have to remember this for every program they use.

Google Drive

Google Drive & Suite

Google Drive is used as our students' storage cloud. They use Google Suite including, Docs, Slides, Sheets, and Forms to create and then save these documents to their Google Drive. Then they can share these documents with teachers and peers.

Google Classroom

Google Classroom

Google Classroom is our online Learning Platform where teachers have online classrooms with interactive lessons and assignments. Students can click on links for more information, privately ask the teacher questions, watch video clips, and participate in online discussion forums with classmates.

Study Island

Study Island

Study Island is an online learning program where students participate in interactive activities that help to improve their knowledge and skills across all academic curriculums. It is research based and aligns with State and National Standards.

MyOn

MyOn

MyOn is an online learning platform for literacy. This program generates book recommendations within the student's target reading level based on their interests and past choices. Students have access to over 13,000 books in MyOn. The program tracks their progress to help teachers target skills that the student is struggling with.

Raz Kids

Raz Kids

Raz Kids is a scaffolded online reading program used by our primary grades to help build literacy skills. Students read digital texts and utilize interactive tools to help them when they are struggling with a particular skill. When the student is able to demonstrate they have mastered a skill they level up.

DreamBox

DreamBox

DreamBox is an online mathematics program designed to tailor math instruction based on the skills in which the individual needs help. It ensures that students work in their optimal learning zone. The program reports the results to the teacher so that she effectively and efficiently plan the best lessons for her students.

CES Facebook Page

CES Facebook Page

The CES Facebook Page is Cahaba Elementary School's Social Media Platform. All school news, announcements, and events are posted on this site. Check it often to stay in the "know."

CES Website

CES Website

The CES Website is where you can find general information about the school, search for teachers, learn about the PTO, discover events, and view photo galleries.

TECHNOLOGY RESOURCES

Achievement Series

Achievement Series

Achievement Series is an online assessment tool that houses question banks. Teachers can create tests that assess a specific skill or standard or several skills or standards for any subject. The Achievement Series Program allows teachers be in control of test content to assess a specific standard taught.

Performance Series

Performance Series

Performance Series is an online assessment tool that is tailored to the individual student's proficiencies. The online testing program automatically adjusts questions for each student's individual learning level. So, the program shows not only what students are struggling with, but also where they excel.

Accelerated Reader

Accelerated Reader

Accelerated Reader is a leveled reading system designed to determine a student's reading level and scaffold the student's reading skills by gradually raising the level and quizzing their comprehension. This research based program has been extremely successful because it allows students to choose books they are interested in but ensures it is in their proximal learning zone.

STEM Scopes

STEM Scopes

STEM Scopes is an online learning platform that promote student inquiry and real-world understanding of science, engineering, technology, and mathematics through hands-on and digital experiences. Students participate in online modules and interactive simulations.

Mystery Science

Mystery Science

Mystery Science is an online learning platform focused on elementary science. Each lesson contains a central mystery. Students participate in a variety of plugged and unplugged activities to solve the mystery.

Social Studies Weekly

Social Studies Weekly

Social Studies Weekly is a social studies curriculum that is designed to enhance literacy skills. It's online platform provides simulations, games, and interactives that allow students to experience history.

Sheppard Software

Sheppard Software

Sheppard Software is an online tool that provides, learning experiences, tutorials, and games to enhance knowledge and skills across age groups and curriculums.

AprilSmith.org

AprilSmith.org

AprilSmith.org is our Technology Class Learning Platform. Here you can see the lessons your child is learning in Technology Class. This platform also provides school information, student work galleries, and online interactives, simulations, and games to support classroom instruction and enhance learning.

Keyboarding Without Tears

Keyboarding Without Tears

Keyboarding Without Tears is a web-based curriculum for grades K-5 that teaches typing, general computer readiness, digital citizenship, and online test prep. This program is designed to enhance digital communication and digital citizenship. It is game-based with cross-curricular themes and is the only keyboarding program with an ISTE Seal of Alignment.
