

Hello Parents,

I'm really excited to tell you our class will be using an app called Bloomz to simplify how we communicate with you and keep you in the know of what your child is doing while under our care. Get ready to see:

- Daily updates on what your child is doing and learning
- Photos from the day or specific activities with a 1 click download option on your desktop
- Access to our class calendar including closures and special events with built in reminders
- Invitation requests to events/field trips
- Volunteer requests and ability to sign up right in the app
- Parent Teacher Conference signups
- And more...

Bloomz even has a messaging feature so you can instantly message one of our staff (e.g. in case you're running late for pick-up) or another parent (perhaps for a last minute pick-up request).

Imagine having access to all these in one place, right on your mobile devices or on the web!

More details about how to join our class will follow. Please contact me if you have any questions or concerns.

Let's connect on Bloomz!
